THE FINNISH CHEMICAL SOCIETY

The Finnish Chemical Society consists of two main societies (SKS and FKS), along with their local associations and scientific divisions closely affiliated with the societies.

With a single membership fee, you can become a member of either SKS or FKS—or both—as well as their respective local associations and scientific divisions.

You can also participate in events organised by the scientific divisions.

Membership benefits include knowledge sharing, events, seminars, networking, Kemia magazine, international cooperation and much more!

MEMBERSHIP FEES

SUOMALAISTEN KEMISTIEN SEURA (SKS) or FINSKA KEMISTSAMFUNDET (FKS)
YOUNG MEMBER 10€ / YEAR
REGULAR MEMBER 69 € / YEAR
RETIRED MEMBER 34,50 € / YEAR

MEMBERSHIP BRINGS MANY BENEFITS:

- As a member, you will receive the KEMIA magazine, its online publications and newsletters.
- The Finnish Chemical Society communicates with its members through regular newsletters and publications on the website and social media to keep you up to date with the latest news.
- You can take part in events, seminars, company visits and networking events organised by the main and local associations.

- You can participate in events, seminars, company visits and networking events organised by the scientific divisions.
- You can participate in events and seminars organised by the Finnish Chemical Society in cooperation
 with other organisations (e.g. the Finnish Exhibition Centre, Heureka, universities, scientific societies,
 companies, etc.).
- As a member, you can apply for grants from the Foundation of Finnish Chemistry Congress
- Membership opens doors to international activities and networking (e.g. IUPAC, EuChemS and EFCE)

^{*} For some events, participation fees are charged to make the activities possible.
